

Wootton Community Primary School

9th October 2026

Dear Parents/Carers.

Dates for 2026-2027
(subject to change)

Mon 12th Oct:- Harvest Service Y1-Y6 St Marks Church & YR Wellie Walk

Tues 13th & Thurs 15th Oct:- School tours for new Reception Sept 2027 9.30am & 1.30pm

Weds 14th Oct:- School photographs

Mon 19th Oct:-Fri 30th Oct: **Half Term**

Mon 2nd & Weds 4th Nov:- Parents Evenings & Book Fair

Weds 4th Nov:- Flu Vaccines & 'Lets Rocket' lunch menu

Fri 6th Nov:- Disco

Mon 9th Nov:- Clubs start

Tues 10th Nov:- Y6 CPR Training and Y3 Stone Age Workshop

Thurs 12th Nov:- Reception class Diwali afternoon for parents

Mon 16th Nov:- School council to attend Governors meeting at 6pm

Fri 4th Dec:- Christmas Fayre

Tues 15th and Thurs 16th Dec:- Christmas Show 1.30pm and 6pm

Thurs 16th Dec:- Christmas Dinner

Fri 18th Dec: Christmas Party

PTA

We had a busy AGM on Monday and it was wonderful to have a reminder of the various events last year and money that was raised. Each year at the AGM we have to appoint a new committee which we have been able to do. Amy, Reuben and Jessica's mum, has given a considerable amount of her time and energy over the last few years being the Chair of the PTA but has now stood down from this role. I know I speak on behalf of many in that we are so grateful for all that she has done over the years, and her time and ideas will be missed.

Our new PTA are Chair: Megan (Henry in Reception), Vice Chair: Hannah (Archie in Reception and William in Year 1), Secretary: Chloe (Bo in Reception) Treasurer: Sophia (Harvey in Year 1), Vice Chair: Charlotte (George and Lauren in Year 1 and James in Year 2) and Marketing: Eleanor (Bobby in Reception and Sonny in Year 3).

We are looking forward to the first event, the **disco, on Friday 6th November** and plans are in place for a **Christmas Fayre on Friday 4th December**.

Celebration assembly

It was great to hear all the different reasons our **Star Pupils** were chosen for this week; this is always a highlight of the week for us all. We also congratulated a range of achievements outside of school too. We heard from Luisa and Dotty in Year 4 with Megan in Year 5 who ran the 5K Dash in the Dark last weekend to raise money for the air ambulance. Alfie in Year 4 showed us his beautiful trophy he has been awarded for being the most enthusiastic newcomer at his sailing club, Louis and Jake in Year 5 shared their rugby medals following their participation in a rugby festival on the mainland and Jasper, also in Year 5, shared his shields from Cubs for being 'Cub of the year' and the cub with the best attendance. Great work everyone, well done!

Homework

Well done to our top homework achievers for their hard work over the week and earning 5 House Points each:

09/10/26	Numbots	TTRS	Maths shed	Spelling Shed
1	Jude Y3	Md Ahbab Y5	Patryk Y5	Emmy Y3
2	James Y2	Jasper Y5	Tilly Y3	Md Ahbab Y5
3	Matilda B Y2	Jack Y3	Jessica Y5	Caleb Y3
4	Fox Y2	Milo Y3	Sonny S Y4	Logan Y5
5	Matilda D Y2	Dominic Y3	Leo Y5	Maggie Y3

Word of the week and BIG Think

This week our word is '**eavesdrop**' and our BIG Think question is '*Is there anything that cannot be bought?*' It was an interesting discussion, in particular in Key Stage 2, with the children working in their Houses so debating with different aged children.

I wonder what your thoughts on this are?

Parents evening

Please ensure you have signed up for a session on either **Monday 2nd or Wednesday 4th** via Arbor.

Scholastic Book Fair

During the parents' evenings on Monday 2nd and Wednesday 4th November we will be hosting the book fair again for you to purchase books and reading accessories whilst fund raising for school. Please come along and have a look and purchase some great books at really great prices! You will need to use a card to pay as we cannot take cash.

School Photographs

Don't forget that our school photographer is in school next **Wednesday** for the children to have their individual photos taken. There are a few spaces left if you want to book a family photo, but you will need to book a session through the office.

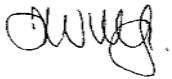

Shoe boxes

Thank you so much for supporting the Rotary Club making shoe boxes to be sent to children who would not otherwise have Christmas gifts this year. We have had an incredible number this year, 54 boxes in total!

Harvest

Thank you so much for all the offers of help to and back from the Church on Monday. Please remember to send in food items for our donations to the food bank on Monday, thank you.

In the meantime, have a wonderful weekend

Jane Wilford
Headteacher

WHAT RECEPTION HAVE BEEN UP TO

We have had a great week in class and this week we started our phonics program. The children were very focused and keen to learn some sounds and I have been very impressed with how well they sat and listened whilst we introduced each sound. We encouraged the children to have a go at writing some of the sounds independently which they did and Miss Shephard did an adult led task with them, and they chalked the letters outside.

In maths we have continued to do some whole class 'subitising' and then I have worked with the children on a 1:1 basis to subitise up to 5. A few children needed a reminder not to count the objects but everyone had a good go.

This week we opened up our transient art area and in pairs the children have had a go at creating pictures/scenes using a range of these natural resources. They really enjoyed doing something different and we got some nice photos of their work. Our little people are getting very tired now after a busy time in school, but they continue to work hard, and we are very proud of them.

WHAT YEAR 1 HAVE BEEN UP TO

This week in English, we have been developing our sentence writing skills. We practising writing dictated sentences using finger spaces. We also learnt how to join two ideas together using the word 'and'. The children worked hard to write their own sentences! At the end of the week, we had an author and her pony come and visit us. This was a great experience and got us all thinking about what we would write about if we were writing our own books.

In Maths, we have been learning how to partition numbers. We used counters and part-whole models to explore how numbers can be partitioned in different ways. We practised writing addition number sentences. We then used partitioning to 5 to help us problem solve.

In Geography, we looked closely at a map of another school and explored the different human and physical features. We compared the map with our own school and talked about the similarities and differences.

In Science, we learnt about the sense of taste. The children tasted different flavoured crisps and tried to guess the flavour. They used some amazing vocabulary to describe the taste and really enjoyed this activity!

In DT, we started to add the final touches to our finger puppets. The children had to consider their designs and then carefully cut and stick felt to make their characters come to life. The children are all really excited to bring their puppets home to show you!

Overall, a brilliant week! Well done Year 1!

WHAT YEAR 2 HAVE BEEN UP TO

We have had another busy week of learning in Year 2! In English, we have begun our final writing journey based on *Traction Man*, which will lead to the children creating their own toy adverts. They have been using expanded noun phrases to describe toys and the conjunction 'because' to explain why someone should buy them. I have been so impressed by the children's continued progress in handwriting and their dedication to forming their letters correctly. In Maths, we have built on our understanding of tens and ones and finding 10 more and 10 less. We ended the week by exploring addition without exchanging. In Art, the children created collages showing the stormy waves Grace Darling faced during her daring rescue. In History, we examined memorabilia that helps us remember her and then created our own. In RE, we continued our topic on special places by exploring the inside of a Mandir, a Hindu place of worship. In Music, we have been practising our autumn song, ready for our Harvest celebration on Monday! Well done Year 2

WHAT YEAR 3 HAVE BEEN UP TO

In English this week we have focussed on oracy through the medium of poetry. The children have explored a range of acrostic poems and learned how to use their body language and tone of voice to perform. In the second half of the week, we wrote our own acrostic poems using the title GIANT based on the BFG. In maths, we have moved into multiplication and division - recapping the 2,5 and 10's times tables and division facts. In the wider curriculum, we have explored how we can protect our eyes in science, discovered how data travels via the internet in computing and used digital devices to create funny and informative videos to explain what peace means in RE. My highlight of the week was music. Over the last couple of weeks, our music lessons have been learning our harvest song. The children have done really well learning the tune and I hope they enjoy performing it next week.

WHAT YEAR 4 HAVE BEEN UP TO

In maths, we have been using the column method to subtract numbers. Some of the children have found it helpful to represent the digits as counters in their relevant place value columns, particularly when needing to exchange between place value units. We then moved onto problem solving and the children worked with a range of vocabulary which required them to add or subtract. Overall, the children are less confident with subtraction than addition so we will revisit it regularly. In English we have built on the children's skills of writing direct speech. We've focused on the correct use of punctuation in addition to the inverted commas around the spoken words. Direct speech will now be used to write witness statements as the children continue to draft their newspaper reports. In art, the children have printed letters and designed borders, ready to illustrate their final illuminated letters. We looked at the effect of temperature on different types of chocolate in science and, although our comparative tests didn't all go as predicted, the children were able to give excellent explanations about what happened and why! We are looking forward to performing our harvest poem next week and any final practice over the weekend would be very much appreciated!

Thank you.

WHAT YEAR 5 HAVE BEEN UP TO

In Year Five this week, we have made super progress with applying our addition and subtraction skills to multi-step word problems. These can be really challenging, due to the amount of thinking and understanding involved, but the children have worked really hard and particularly enjoyed our word problem treasure hunt! In English, we have been preparing to write our survival guides, gathering vocabulary and learning how to organise our paragraphs with topic sentences. In art this week the children had a choice for their final piece, either contributing to a group project recreating Hokusai's wave, or creating their own Hokusai-inspired artwork. They had decisions to make around which media to use, as well as what their main subject would be and how to show inspiration from Hokusai. In geography, we learned about the imports and exports of Japan, and how this is dictated by the country's natural resources. Our science lesson saw us finding out about different ways of separating mixtures, and in RE we learned more about Eid Al-Adha. The children are much more settled in their routines now, and their learning behaviours are really growing and having a positive impact on their work. Well done everyone!

WHAT YEAR 6 HAVE BEEN UP TO

Such a fantastic week in Year 6! Within English, we have been analysing persuasive writing and looking at how the acronym AFOREST can help guide our thinking. The children have begun writing pamphlets as if from the Government asking owners to sell their horses to aid the war effort. These are coming along brilliantly, and I have been so impressed by the children's language choices and focus to up level their work. In Maths this week, we have recapped our understanding of multiples, factors and primes, and learnt a catchy song to remember the difference between these! Year 6 have persevered through challenging questions and enjoyed working out the solutions on their tables rather than in books. We had a super Science lesson, where we carried out a fair test and concluded how shadows are affected by the distance between an object and a light source. The children carefully transferred their results to create a line graph, building many important skills during this process. We had an enjoyable Art session, focusing on painting techniques and have been practising our Harvest song in Music. The highlight of this week, however, has got to be the workshop we had with author Darren Simpson. He inspired the children to create their own characters based on a similar style to his books and the class loved it! Well done Year 6!

SPRING/SUMMER 2026 MENU			WEEK 1 W/C: 13/04/2026, 04/05/2026, 01/06/2026, 22/06/2026, 13/07/2026

WOOTTON COMMUNITY PRIMARY SCHOOL

SPORTS NEWS

AUTUMN 1 – WEEK 6: 09.10.2026

Vs Nettlestone
1-1

U9 Boys (Open) Football – Rural League –

The Year 3/4 team had a great afternoon of football yesterday. They travelled to Nettlestone to play in their first game of the season. We had several players playing their first football game for the school and it was a pleasure to watch them gel so quickly as a team.

Nettlestone were good; and they may prove to be one of their toughest challenges. But that didn't dissuade the team. They thoroughly deserved their 1-0 lead at half time and had chances to score more. Unfortunately, Nettlestone scored to level the game and it could really have gone either way after that. A 1-1 draw is a good result and a great platform to build upon.

A special mention to Ollie T, who is a super goalkeeper! He made a string of saves that really made a difference and I can't wait to see what he can achieve.

Thank you and well played Arlo W, Ollie T, Phoenix B, Phoenix E and Aiden O from Year 4 and Luca G, Jasper C, Sonny S and Leo H from Year 3.

Clubs for next half-term are open for sign up!

The club letter email has been sent out so please encourage your children to sign up for a club if they are able.

We desperately need more Year 3 and 4 girls to sign up, otherwise we may have to withdraw the team from their competition.

SPORT THIS WEEK

The U9 Boys (Open) played against Nettlestone in their first game of the season.

UPCOMING SPORT

On Monday a team of Year 5s and 6s are playing the group stage of their Tag Rugby competition.

The U11 girls will have a busy first week back!

OTHER NEWS

Congratulations to Year 3 class! They are the most active class for September and get to look after Strider for the month. They recorded most frequently the most active trips. Who will win him for October??

School Age Immunisation Service - Parent Newsletter

Annual Flu Vaccination Programme

All children are eligible to receive the flu vaccine. Parents and carers are sent a link to the online consent form between September and November, ahead of the school vaccination session.

The vaccine is usually given as a nasal spray. For children who cannot have the nasal spray due to medical or religious reasons, a porcine-free injectable vaccine is available. Details about how to request this are included on the electronic consent form.

Why should I get my child vaccinated? Flu is a highly infectious illness that children can catch and spread easily. For many children, flu can be very unpleasant and may lead to complications such as ear infections, bronchitis, or pneumonia. In some cases, it can result in serious illness requiring hospital treatment.

Vaccinating your child not only helps protect them from flu but also reduces the spread of the virus to others who may be more vulnerable to serious illness, including babies, pregnant women, older adults, and those with long-term health conditions.

What if my child misses their school vaccination session? If you provide consent for your child to receive the flu vaccine and they are absent on the day of the school session, you will automatically receive an email inviting you to book an appointment at a local community clinic, ensuring your child still has the opportunity to be vaccinated.

It's not too late to complete the consent form. Even if your child's school vaccination session has already taken place, submitting a form now will allow you to book an appointment at a local community clinic.

For contact details and further information about the School Aged Immunisation Service and the vaccination programmes offered, please visit:

NATUREZONES
Wildlife Field Study Centre
Giving nature a helping hand

Invitation

Nature & Ecology Science Community(NESC)
"Bringing together for mutual support the Island's natural history and ecology, science education community for the betterment of Island children"

Now in its 20th year, Naturezones is a dedicated field study centre. The national curriculum is the bedrock of all that we offer. Giving children the opportunity to bring their classroom lessons to life.

The 10 acre site has been specifically designed as an outdoor "Living Natural History Museum" to support primary and high school natural history education.

NESC is our next step. Our aim is to support educators in their mission to provide quality education in the natural sciences and to bring like minded people together to share and further their ambitions for a better future for Island Children.

We currently plan termly meetings.
Where Educators will have the opportunity to share their news and ideas.

Mary Colwell MBE

Mary is an English environmentalist author and producer. She previously worked for the BBC natural history unit. She is founder and director of the charity Curlew Action and Chair of the Curlew Recovery Partnership England, a Department for Environment, Food and Rural Affairs initiative dedicated to reversing the decline of the Eurasian Curlew.

Author of "Curlew Moon". A must read. Signed copies will be available for purchase after the meeting.

Mary came up with the idea of a Natural History GCSE in 2011, but it wasn't until 2017, when Caroline Lucas got involved, that the campaign took off. Back in June 2021, OCR finally launched a public consultation to in 2026, to which Naturezones contributed.

We are now awaiting the outcome of this consultation.

We are excited that Mary will be involved in the launch of NESC: The Island's first meeting of our Nature Ecology Science Community initiative.

Join Mary Colwell MBE
